South Haven Baptist Revitalizes with Paragon 360

Local Church Benefits from National Design Firm Expertise

SPRINGFIELD, MO (July 10, 2017) When South Haven Baptist Church decided to revitalize their church through a Sanctuary Renovation project, they turned to Paragon 360, a nationally renowned design firm, and in this case, a local neighbor, located in Springfield, Missouri. Ryan Palmer, Senior Pastor at South Haven, stated *"we ultimately selected Paragon because of the vision they brought to our project. When we sat down with Paragon and expressed our values, what we were looking to accomplish, and who we are as a team, what they came back to us with from their design phase was more than we could have asked for or imagined."*

Delivering professional audio, lighting and rigging systems, in addition to custom scenic and staging elements in a design/build format, Paragon 360 transformed South Haven's sanctuary into a perfect blend of modern technology and capability, combined with classic features that were an integral part of the church's past. *"Paragon, I think, understands better than anyone else out there what churches are looking for",* stated Palmer. *"But they also have a deep appreciation for the heritage and the history of a church. They were able to take those things that we wanted to keep and to treasure, but also brought a lot of new, modern elements to it, and brought it together in a perfect blend that just created a product in the end that we felt so confident in."*

In addition to the installation of a new, state-of-the-art lighting system, Paragon 360 also installed substantial upgrades to South Haven's audio system. As a long-time client of Paragon 360, the Paragon 360 Audio Team had worked with South Haven's audio system prior to this renovation project, and were able to upgrade the current system without the need for a complete system replacement, which resulted in substantial cost savings for South Haven. Paragon's signature custom Scenic & Staging elements also played a pivotal role in the South Haven renovation project, and are featured prominently throughout the Sanctuary.

Upon completion of the South Haven project, Pastor Ryan Palmer went on to say *“I would recommend Paragon 360 above anyone else. They’re top-notch. They brought about a vision and a set of values and gave life to it. We came in with an idea of wanting to do just certain things, and they really brought that to its fruition. I would recommend them above any other, and I would tell people if you use Paragon, you’re going to be pleased with it for years to come.”*
